

Meritor Part

Meritor Parts - The Meritor Business is a leading international supplier built upon one hundred years of custom of quality and service. Meritor concentrates on integrated systems with different modules and parts to the original machine manufacturers and aftermarket equipment within the transportation and industrial trades.

Meritor values the requirements of all their clients to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their global operations. Meritor starts with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 nations and employing over 11,200 people, Meritor promotes collaboration and innovation amongst a team of experienced experts.

By only employing future focused workers, Meritor strongly feels these top-caliber people will be able to quickly get used to to changing environments and demonstrate the commitment and performance needed in order to achieve results in the competitive materials handling business. The business empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor provides their staff different opportunities for professional and personal growth.

Their Advanced Engineering team is at the forefront of parts and system engineering that comprise drivelines, axles, braking and suspension systems meant for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is even responsible for supporting the requirements of their international engineering employees.

The Quality team at Meritor is a dynamic and customer-focused group which is devoted to ensuring optimum progress at their production plants and aftermarket distribution facilities which are located on 5 continents and in 19 nations.

They have their supplier network that is specifically located to support the development of the business. Each and every regional team has internationally supported quality systems, initiatives and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making within each and every part of the trade. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is also included transactional Green Belts who apply Six Sigma tools to business processes and apply lean methods.
