

Clark Forklift Parts

Clark Forklift Parts - Performing worldwide, there are at this time 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those in commission in North America. Clark has five main lines of forklifts across the world, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 unique brands of lift trucks, with parts covering more than 120,000 particular items for all of its automated equipment. Your local Clark Dealer is your total source for availability of all your parts needs provided by Clark Totalift.

Clark's exceptional Parts Distribution Facilities are conveniently situated in Louisville, Kentucky, which serves both their consumers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Driven to offer the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Globally, Clark has one of the most amazing supplier support networks. With over 550 locations worldwide, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the materials handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional dedication to safety is at this time a customary feature on every lift truck.

Clark has a relentless mission to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its manufacturing plants. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental limitations, thus placing them in a prevailing industry position.

Clark has selected the system of "Lean Production" at all of its assembly facilities for the reason that this method is extremely economical and permits minimal use of resources. Developed to ensure maximum proficiency, this system is intended to discover and acknowledge the most efficient ways for manufacturing plant stewardship. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to develop the proficiency and brilliance of their merchandise while minimizing costs. The contemporary value engineering program combines innovative product development and offers superior client support and service within the industry.
