

TCM Forklift Part

TCM Forklift Parts - In the international trade of material handling, forklifts play a major part for transporting industrial goods. Originally innovated as industrial vehicles in the 1930s in the United States, lift trucks gained recognition following World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machines spread worldwide.

In the year 1949, started by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Currently the business is simply referred to as TCM Corporation. Throughout the years, TCM lift trucks have become a worldwide leader in lift truck manufacturing and have built a solid reputation with the industry. TCM began building forklift manufacturing sites outside of Japan in the 1980s and is currently engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

With more than fifty years of accumulated expertise and technology, TCM has been proudly manufacturing various models of industrial trucks, making their models recognizable all around the globe. With a strong and energetic staff, TCM has been able to continually work towards becoming a future leading material handling company.
