

Spreader Bars for Forklift

Forklift Spreader Bars - Proudly operating ever since 1974, ELME Spreader AB is the largest independent spreader maker in the globe. They have been a dedicated maker of spreaders used for different applications like for example the handling of containers, swap bodies and trailers.

Engineering is done in house by utilizing all of the newest CAD systems and FEM tools. The ELME company now has over 125 staff members. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers all-around the world.

The ELME product series offers spreaders for a variety of container and trailer handling operations. Some of their inventory include: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks and a wide array of additional parts.

ELME production and manufacturing is performed in a highly automated purpose built factory. In the year 2008, they made more than 1150 spreaders by means of making use of top quality elements to guarantee reliability and high standards while offering reasonable prices. Major characteristics of ELME include design simplicity, market response and inventive modular spreader concept.
